## Professional Summary

I am a 22-year-old student pursuing a bachelor's degree in software development. I have a strong passion for development and coding, driven by both personal interest and family inspiration. I thrive on new challenges and believe in working smart as well as hard. I am confident in my ability to contribute effectively to an organization, applying my academic knowledge and skills.

## Work Experience

### Soft House, Karlskrona, Sweden
*Android App developer*
Oct 2024 – Nov 2024

- A project with HKR and Soft house where we develop an Android app in a team.
